SUMMARY

Second-year Interaction Design student at QUT with hands-on experience in Figma, wireframing, and accessible UI design, alongside front-end development in HTML/CSS. My projects, including Volunteer+, focus on improving accessibility for diverse users, with an emphasis on applying WCAG principles. I am curious, proactive in asking questions and motivated to gain real-world experience in an agency environment.

EDUCATION

Bachelor of Interaction Design

Queensland University of Technology

- GPA: 5.6

Kelvin Grove, QLD

Feb 2025 – Present

WORK EXPERIENCE

Bilingual Community Assistant

MultiLink Community Services Inc.

Logan central, QLD

May 2024 – Present

- Delivered culturally responsive settlement support to newly arrived refugee clients navigating services, developing a strong ability to understand diverse needs and adapt communication accordingly.
- Coordinated and facilitated information sessions with external service providers, providing interpreting support in Dari and Farsi, and building strong collaboration and communication skills across teams.
- Supported clients with registrations, referrals, and applications for education, financial assistance, and community programs, helping them navigate complex systems and strengthening the ability to simplify information into clear, step-by-step processes.
- Adjusted support based on client feedback, showing responsiveness to feedback and continuous improvement.

Research Assistant

The University of Queensland & QPASTT

St Lucia, QLD

Nov 2024 – Present

- Assisted in a research study on inclusive education in Queensland.
- Collected primary data using a research questionnaire, building research and analytical skills to inform decisions.
- Assisted in conducting qualitative data collection workshops, strengthening awareness of accessibility and diverse needs.

Peer Mentor
QPASTT

Woolloongabba, QLD
Apr 2023 – Sep 2023

- Lead youth camps of 15-20 teenagers and conducted group activities.
- Supported development of social skills and positive peer relationships.
- Built leadership capabilities through formal training and practical experiences.
- Created a safe space for young people and fostered a sense of belonging.

SKILLS

Design: Figma and InDesign (wireframing, user flows, low–high fidelity prototyping)
Frontend: HTML, CSS, JavaScript; GitHub (deployment & version control) HTML, CSS,
Accessibility: WCAG principles and implementation
Other: Microsoft Office Suite
